

# SIERRA MADRE NEWS

VOL. VI.

SIERRA MADRE, LOS ANGELES COUNTY, CALIFORNIA, FRIDAY, OCTOBER 13, 1911

NO. 2.

## CALIFORNIA'S RANK FIRST PROGRESSIVE LAWS ADOPTED

Voters Authorize 23 Important Changes in the Constitution of the State

By the action of the voters at the special election on Tuesday, California takes the front rank among the states having progressive legislation embodied in their constitutions. Every one of the twenty-three constitutional amendments was adopted, including No. 4, giving women suffrage on an equal footing with men.

The amendments receiving the highest vote were the initiative and referendum, the recall, and the one forbidding frequent changes in the text books. Variations in the vote cast for the various amendments show that the voters used sharper discrimination than was to be expected, considering the circulars sent out from the office of the secretary of state, which were in such form as to make impossible the convenient study of the proposed legislation.

The victory of equal suffrage after its apparent defeat on the early returns is a source of unbounded delight to suffragists of both sexes. As this is written a majority of 3000 or more seems assured.

Sixty-three men registered their votes against suffrage at the Sierra Madre polls on Tuesday, this being a majority of seven against the proposed amendment. Two other amendments, those abolishing justice's courts and permitting railway passes to certain public officials, also received adverse vote. All the others received favorable votes of two or three to one. The total vote of 123 was considered fairly good in comparison to an average of about 160 at regular elections and a total of about 180 registered voters who were not out of town at the time.

The local vote on all the amendments is given below:

Amendments—	Yes.	No.
No. 1—Relating to inspection, measurement and graduation of merchandise .....	86	25
No. 2—Providing for county home rule .....	80	28
No. 3—Providing for a divided legislative session .....	74	30
No. 4—Permitting women to vote .....	56	63
No. 5—Relating to the rights of property and the laws .....	88	16
No. 6—Relating to charters of cities .....	86	20
No. 7—Providing for the initiative and referendum .....	84	26
No. 8—Providing for the recall by electors of public officials .....	85	27
No. 9—Relating to appeals in criminal cases .....	90	19
No. 10—Relating to compensation for industrial accidents .....	76	30
No. 11—Relating to term of office .....	77	22
No. 12—Increasing the powers of the railroad commission .....	78	31
No. 13—Relating to the powers conferred on municipal corporations by freeholders' charters .....	81	23
No. 14—Giving municipalities the power to establish and operate public utilities .....	65	41
No. 15—Relating to the minimum period for the use of textbooks in the common schools of the state .....	90	20
No. 16—Increasing the state railroad commission and enlarging its powers and duties .....	79	29
No. 17—Relating to the manner of electing officers of cities and the number of votes necessary to constitute a choice .....	83	22
No. 18—Relating to the judiciary and giving the legislature power to establish inferior courts .....	52	57
No. 19—Regulating the issuing of passes to public officials .....	52	57
No. 20—Relating to the election of a clerk of the supreme court, etc. ....	82	25
No. 21—Providing for the impeachment of state officers and judges .....	84	23
No. 22—Relating to the exemption of property from taxation .....	62	44
No. 23—Regulating rates of railroads and other transportation companies .....	80	27

## DR. EDWARD CAMPBELL CHOSEN

Former Sierra Madre Resident Called to Los Angeles Pulpit

Rev. Dr. Edward Campbell, who spent last winter in Sierra Madre and has many friends here, has been called to the pulpit of the First Presbyterian Church of Los Angeles. He came to Sierra Madre from Storm Lake, Iowa, where he was president of Buena Vista College. His wife, for the benefit of whose health he came west, died later in Long Beach.

In calling Dr. Campbell, says the Los Angeles Express, the First Presbyterian church will fill its pulpit, which has been vacant for a year, with a man who is nationally known as an educator and preacher, and one of the strongest men in the Presbyterian church today.

The pulpit has been supplied by Rev. Frank Mundy the last few months, but has had no regular pastor since Rev. Will A. Hunter resigned a year ago. The church has had several of the ablest men in the denomination as its pastor, including Rev. Dr. Talmaize, Dr. Bert Estes Howard and Rev. William Chichester, founder of Immanuel Church.

Dr. Campbell, who has been preaching at the First Church several weeks, will occupy the pulpit next Sunday morning and will probably accept the call at that time. He is a graduate of the McCormick Theological Seminary, and previous to holding the presidency of Buena Vista College he was pastor of a large church in Chicago.

## CHARLES H. VANNIER DEAD

Charles H. Vannier passed away very unexpectedly yesterday at the home of his brother, Emil H. Vannier, Hermosa and Ramona avenues. He had resided in Sierra Madre about a year, coming here from Chicago. He was a chemist and consulting engineer for the Griffin Wheel and Foundry company of that city.

## ISN'T IT TIME TO PAY UP?

Apparently it is about time for E. C. Lehmer, "city treasurer," to refund to the city the extra pay with which he has rewarded himself for his services as treasurer under his peculiar interpretation of the law. The more it is examined the more untenable appears his position.

The law says the treasurer shall credit himself with one per cent of all moneys received and paid out, where no other compensation is allowed by the trustees. Obviously it was the intent of the lawmakers that the treasurer should receive one per cent on the money actually handled, and not one per cent as it comes in and one per cent as it goes out, which would be equivalent to two per cent. The latter is Mr. Lehmer's contention and he has so credited himself on the city's books ever since he became treasurer.

Acting upon instructions from the city trustees, City Clerk Perry addressed a circular letter to all sixteen class cities in the state, putting the question so it could not be misunderstood. Replies had been received from 12 cities yesterday. Of these 16 pay their treasurers a straight salary, averaging somewhat less than \$20 monthly.

The practice in 24 cities bears out the contention of the News that the treasurer is entitled to only one per cent of the money handled. One city allows the treasurer two per cent by special ordinance. In only one city of the 42, does the treasurer receive one per cent on money as it comes in and one per cent on the same money as it is paid out. Of the 16 cities paying the treasurer a salary, two write that before the salary plan was adopted the treasurer received one per cent of the money handled, in conformity to the practice of the 24 cities mentioned.

These reports came from cities in all parts of the state. Our "city treasurer" would have us believe he has found numerous precedents for his action in other cities. Where did he find them?

In addition to the precedents found to support the contention of the News, a superior court decision is cited by the clerk of one city. No supreme court decision has been rendered in this matter.

## MONROVIA'S GAS FIGHT

Gas Company Takes a Hand in the Rate Agitation Over There

Sierra Madre is naturally interested in the efforts of Monrovia citizens to secure lower gas rates, inasmuch as both cities are served by the Southern Counties Gas Company from the same plant, which is located in Monrovia. The present rate in Monrovia is \$1.35 per thousand feet. The rate in Sierra Madre with one-third as many consumers, is \$1.50.

Monrovia's agitation for lower gas rates was started by Col. Baker, who tried to organize a company to install a system over there with the avowed intention of selling gas at \$1 per thousand. His project did not materialize, but the agitation aroused assumed several forms.

President Forney of the gas company has made the latest move in the situation by asking the city trustees to establish a rate, to be based upon a physical valuation of the company's plant, apparently expecting to be able to make a showing which would justify a rate satisfactory to the company and at the same time put a spoke in the wheel of the possible competitors. Speaking of the company's proposition, the Monrovia News says:

Mr. Forney asked the trustees to adopt an ordinance providing for the appointment of a gas meter inspector, who should also make tests of the quality of the gas furnished by the company to its Monrovia consumers; also that the trustees select a competent engineer to ascertain the value of the company's plant and the cost of producing gas, and to fix the price of gas in accordance with the facts so ascertained.

The News understands that the company does not expect, in the event of its offer being accepted, that the cost of the plant will be considered at all, only its value, as it stands at this time, a physical valuation, and that upon such valuation the price of gas to consumers shall be fixed.

This seems to the News to be a very fair and businesslike offer, provided the company will agree to abide by a reasonable decision. In that event the method of arriving at the proper price to be charged for gas in Monrovia would be precisely the same as that adopted for fixing all public utility charges by some of the more progressive states, such as New York and Wisconsin, and the same as will be in force in the state of California if the constitutional amendment No. 12 is adopted by the people.

The city trustees in case they should accept the gas company's offer, will be doing precisely for Monrovia what the railroad commission will do for all California utilities in the event of the adoption of proposed amendment No. 12; action would be quicker, that is all the difference.

the point in question. However, it would seem that sufficient reason had been found to cause the "city treasurer" to make a substantial refund to the city if he has the interests of the taxpayers as closely at heart as he pretends. The following letter should be sufficient in itself:

Healdsburg, Cal., Oct. 7, 1911.  
C. H. Perry, Sierra Madre, Cal.

Dear Sir: Replying to yours of the 2nd inst., will say that prior to 1899 our City Treasurer received as compensation 1% on all moneys paid in and 1% on moneys paid out.

In that year we voted bonds for a municipal light and water system, amounting to \$80,000. The Board of Trustees refused to pay 1% as before, and to get the matter settled as quickly as possible without waiting for a decision from the supreme court, they brought suit in the Justice's Court against the treasurer for \$299 (the limit of an action in this court), to recover some of the amount overpaid as they claimed. The Justice of the Peace decided in favor of the Treasurer in order to get the case before the Superior Court, where both sides agreed to abide by the decision. The Superior Court reversed the decision of the Justice's Court and held that the moneys had not been handled by the Treasurer until they had been paid out. Since which time we pay the treasurer 1% on all moneys paid out according to the reports each quarter.

Yours very truly,

E. D. EBY, City Clerk.

The following is from City Clerk R. L. Acker, of Oakdale, Cal.:

"As you no doubt know, the law provides that 'When no compensation has been allowed to him by the board of trustees he shall be allowed one per cent on all moneys received and paid by him as treasurer.' Therefore in order to get his one per cent he must both receive and pay the money, but no matter how much money he might receive and have on hand he would receive nothing as compensation until he had paid it out.

"The first of October we set a salary for our treasurer of \$20 per month as we recently voted \$82,000 worth of bonds and of course if we allowed him to continue on a commission he would draw \$820 for paying out this bond money."

## REALTY MOVEMENT BEGINNING

A. S. Mead reports an encouraging list of sales for the first half of October, indicating that with the winter season in full swing there will be an excellent volume of business. Having sold out all of the Valley View Tract, he has now begun to re-sell some of it for the purchasers. Ernest Yerxa has purchased 50 feet fronting on Central avenue from C. B. Mason. The last three lots in the tract were sold by Mr. Mead to Agnes A. Hackney of Los Angeles. He also reports the sale of the east half of lot 18 in the Hawks Addition, fronting on Central avenue, to Mrs. S. A. Wilkinson; and the Kersting residence, 201 Auburn avenue, to Mrs. Mary A. Binford of Washington, D. C., who will come to Sierra Madre to reside.

## NON-ATTENDANCE COSTLY

State Superintendent Shows Importance of Regular School Attendance

Excerpts from instructions recently sent out to teachers by State Superintendent Hyatt show the importance to the school district of regular attendance and punctuality on the part of school pupils. Without doubt the most important recent change in the school laws was that basing the apportionment of school funds to the various districts upon the average attendance records in the schools in each. The circular says:

"This puts a peculiar responsibility upon the teachers of the State. Upon their record day by day, and upon their sworn reports based upon that record, depends the money that the school and the county and the State will receive the next year. This new plan was adopted in the belief that this most important matter could be entrusted to no one so trustworthy, so conscientious, so high minded, as the teachers of the State.

"Thus, the keeping of the daily register becomes a matter of legal importance, a sworn record of actual fact, a fixed and immutable thing upon which all our money is distributed. Each teacher in the state is responsible for the record he makes, and these records stand for a long time, many years into the future. The teacher is responsible not only to his own conscience, but to the laws of the land. A falsified report, resulting in unfair distribution of moneys in the eyes of the law would be perjury or embezzlement—very serious matters, indeed.

"First of all, let us get out of our minds all notion that the keeping of the school register is in any wise a sentimental matter; that a good record is a reward to the pupil, a bad one a punishment; that if a boy has been unavoidably absent or fully excused he may be marked present; that a girl who gets in before the 'tardy bell' should not be marked tardy; that pupils sent home for a half holiday or a week holiday can be properly marked as present. The school register is simply a cold record of fact, a setting down in black and white of a sworn statement showing which pupils were actually in the school during each quarter day of the term, and which were not. It may be necessary and desirable for pupils to be absent at times, but your record must not show for sake of revenue that they were not absent. If the absence is good it is worth the money it costs, and your school should pay the honest price.

"Now, in some cases, these rules seem to work hardship. It is difficult to have four-hour days for double session schools. Some schools do not like to keep the younger children four hours per day. Some schools dismiss early on Friday afternoon. Night schools can not have four-hour sessions.

"In all such instances the answer is the same. When a school finds it impossible or undesirable to maintain the standard length of day, well and good. Let it do freely what is best for its people. But it should not ask or expect quite so much money from the public coffers as if it had met the standard. Let it lose cheerfully a small fraction when it falls short of its fellows and let it go at that. All good things in this world must be paid for."

## SEEK LINK OF STATE HIGHWAY

JOINING FOOTHILL BOULEVARD

Board of Trade Undertakes Important Work for Water Bonds and Highway

Two important matters engaged the attention of the first fall session of the Board of Trade Monday evening. They were the placing of Sierra Madre on the map of the proposed state highway system, and a campaign to insure the success of the municipal water bond issue at the polls on November 7.

On Thursday of last week Messrs. C. W. Jones, C. S. Kersting, George H. Lettau and W. J. Lawless attended a conference at Hotel Maryland, Pasadena, where representatives of the foothill cities from Pasadena to San Bernardino discussed plans for securing the recognition of the state highway commission of the county's foothill boulevard as the official route through the San Gabriel Valley. Mr. Jones presented at that meeting the desirability of bringing the route through Sierra Madre by continuing Huntington Drive from its present terminus a mile west of town. The meeting voted unanimously to include that feature in its recommendations.

The matter having been presented to the Board of Trade it was seen immediately to be a highly desirable thing. The gentlemen who attended the Pasadena meeting were continued as a committee to use every possible means to accomplish the desired result.

Serious work will be begun soon in a campaign to secure the indorsement of the voters to the proposed bond issue of \$111,000 for the purchase by the city of the property of the Sierra Madre Water Company and to make improvements and extensions. The special election will be held Nov. 7. The board authorized A. S. Mead to act as chairman of the committee and to select his own helpers. He has named Messrs. J. W. Keys, A. N. Adams, C. S. Kersting and George B. Morgridge.

In the absence of President Welsher, Vice-President W. E. Farman presided at the meeting. F. H. Hartman is acting secretary.

## GARY PARK PROJECT

Mr. George L. Gary of Sierra Madre is at the head of a new concern known as the Associated Land Investment Corporation which has under way a real estate project of considerable importance. A tract of 100 acres just outside the city limits of Los Angeles, near Bairdstown, has been purchased and will be subdivided for high class residence property. The property is reached by the Pasadena Short Line and is convenient to Los Angeles. It is planned to expend from \$50,000 to \$100,000 in opening up and grading streets, planting trees and parking streets. A 100-foot boulevard will be opened up through the property. Mr. Gary has associated with himself a number of Los Angeles and Pasadena men to carry out the plans. The subdivision is named after him. Mr. Gary came to Sierra Madre a few months ago from Minneapolis where he was secretary of the Minneapolis Steel company. He has been connected with the United States Steel Corporation and its subsidiary companies for more than ten years.

## Sierra Madre Directory

### CITY GOVERNMENT

TRUSTEES—C. W. Jones, Chairman; J. J. Graham, N. H. Hosmer, J. C. Pegler, L. E. Steinberger, Clerk and Recorder, C. H. Perry, Treasurer, E. C. Lehmer, Attorney, H. E. Bridges, Engineer, W. F. Bixby, Street Superintendent, N. H. Hosmer, Marshal and Tax Collector, J. J. Udeh, Chairman Board of Health, Dr. R. H. Mackerras.

Trustees meet in City Hall on the second and fourth Thursdays of each month at 7:30 p. m.

### BOARD OF TRADE

ORGANIZED to promote the civic and commercial development of Sierra Madre. Meets in City Hall on second Monday evening of each month at 8 p. m. Officers—M. D. Welsher, President; W. E. Farman, Vice President; F. H. Hartman, Secretary. Directors—C. W. Jones, Mitchell, W. E. Farman, George B. Morgridge, J. C. Dickson, Greer Caskey, F. H. Hartman.

### PUBLIC LIBRARY

SIERRA MADRE FREE PUBLIC LIBRARY—Central avenue, W. of Lima. Open each weekday afternoon from 1:30 to 5:30 and on Monday and Thursday evenings from 7 to 9 o'clock. Mrs. F. B. Wheatly, Librarian. Municipal Library Board—George B. Morgridge, Chairman; H. J. Potter, Mrs. E. T. Pierce, W. S. Andrews, J. A. Oskood.

### CHURCHES

FIRST CONGREGATIONAL—Central avenue at Hermosa. Rev. James M. Campbell, D. D., pastor. Sunday school, 9:30 a. m.; morning service, 11 a. m.; Christian Endeavor Society, 6:45 p. m.; evening service, 7:30 p. m.

CHURCH OF THE ASCENSION (Episcopal)—Dr. George H. Cornell, Rector. Residence, 715 Rector. Phone Black 70. Sunday school, 9:45 a. m.; Morning Prayer and sermon, 11 a. m.; Holy Communion first Sunday in the month, 11 a. m.; on the greater festival and other days by appointment, 7:30 a. m.; Sunday evening service from October to July, 7:30 p. m.

ROMAN CATHOLIC—Chapel on Highland avenue, east of Baldwin. Rev. M. W. Barth in charge. Services at 9 a. m. Sunday.

HOME OF TRUTH—403 Auburn Ave. Sunday service, 3:30 p. m. Bible lesson, Wednesday, 3 p. m. Healing meeting, Friday, 8 p. m. All are welcome.

### FRATERNAL

SIERRA MADRE LODGE, No. 408, F. & A. M.—Stated meeting first Tuesday in each month. All visiting Masons welcome. Club House Hall, M. H. Bridle, W. M. J. D. Mackerras, Secretary.

SIERRA MADRE CHAPTER, O. E. S.—meets the first and third Mondays of each month in Woman's Club House Hall at 8 p. m. Visiting members welcome. Mrs. Frank Biederman, W. M. Mrs. Cabot Yerxa, Secretary.

## Bungalow Builder's Department

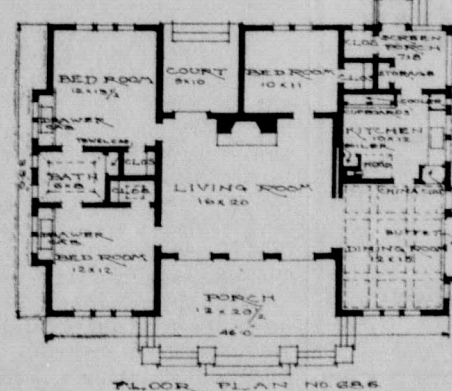

NO. 686—DONE AT  
"Ye Planity"

One of the most popular types of bungalows is that represented by this week's design for the Bungalow Builder's Department. It is especially desirable for lots with plenty of frontage and little depth. For lots fronting north or south on the steep Sierra slope, it has another advantage. The short distance from front to rear obviates the great disparity in elevation above the ground which often occurs with a longer house. Specifications for this bungalow call for shakes on exterior walls and shingles on roof. Foundation is to be of concrete, chimneys and porches of brick, porch and court floors of 8x8 inch tile, and mantle of pressed brick.

Pine finish is to be used throughout the interior. Oak floors with stained and waxed finish are specified in living and dining rooms, with other floors of pine. Paneled wainscot and beamed ceiling make the dining room attractive. Kitchen and bathroom wainscots are to be enameled.

The estimated cost of this bungalow is from \$2600 to \$2850, varying according to local conditions and details of finish. Aside from the advantage mentioned for specific conditions the plan is desirable for any location on account of the excellent provision for lighting and ventilation. Either of the rear bedrooms could be easily constructed as a screen room, something which few houses have been built

without in Sierra Madre during recent years. Abundant porch room is provided. Interior space is economized wisely and the general arrangement is very convenient.

Complete plans and specifications for this bungalow, either as shown or constructed as a screen room, something which few houses have been built

joyed a reunion of a number of rela-  
tives at Long Beach on Sunday. The  
party included Mr. and Mrs. Allen  
Paul of Gardena, Miss Itonia Baird of  
La Jolla, Mrs. Robert True of Denver,  
Mrs. Harry Washburn Buffum of Mis-  
souri, and Mr. S. Davis of Los An-  
geles.

## Woman's Club

The Sierra Madre Woman's Club  
opened the club year auspiciously on  
Monday with an elaborate luncheon,  
followed by the regular club session.  
More than 100 people were seated at  
luncheon. The club colors, gold and  
white, were carried out in the decora-  
tions. Maidenhair ferns were banked  
in the center of the table, with vases  
of yellow and white dahlias placed at  
intervals. There were dainty place  
cards and yellow and white bon bon  
dishes. Seated at a table near the  
platform were the executive board,  
Mrs. Baurhyte, president of the dis-  
trict federation, and several gentlemen  
guests. The gentlemen present  
were Messrs. Pierce, Jones, Mead,  
Dr. Cornell and Dr. Campbell. Mrs.  
sgood, "the club mother," spoke a  
few words of welcome. The address  
of Mrs. Baurhyte was on the subject  
of "Philanthropy." Her deep interest  
in her subject was plainly apparent.  
She has had charge of a maternity  
sanitary for five years and has had  
much practical experience. She dis-  
tinguished sharply between charity  
and philanthropy, contending that po-  
litical institutions for charity are not  
the right kind. The people in control  
should do the work for the love of it.  
Impromptu speeches were heard from  
the gentlemen, and from the commit-  
tee chairman, all of whom seem to  
take hold of their work in a manner  
that promises well for a successful  
year. Mrs. L. C. Torrance gave an  
interesting talk on the work of the  
district federation. Mrs. W. J. Law-  
less gave her annual address as pres-  
ident, taking for her subject "Ideals."  
The attainment of high ideals by the  
club, she said, would necessitate com-  
plete co-operation and understanding  
on the part of all members. Officers  
and committee chairmen cannot suc-  
ceed in their plans unless aided by  
each individual member. She spoke  
encouragingly of the club's progress  
financially and said this would be the  
last year when any difficulty could be  
anticipated.

New club members enrolled are  
Messrs. J. M. Beard, F. J. Garey, L.  
L. Krebs, T. E. Yerxa, R. D. Laws, A.  
J. Perry, John S. Mason, K. M. Ham,  
Guy H. Johnson, C. Rowland, H. E.

J. Campaneri of Los Angeles was a  
guest of Billie Gottlieb this week.Mrs. A. N. Adams and Miss Gleason  
spent Wednesday in Long Beach as the  
guests of friends.Miss Alta Rice of Concord is visiting  
this week at the home of her parents,  
Rev. and Mrs. A. A. Rice.Mrs. K. G. Sawday was the guest of  
friends at a theater party at the Mason  
in Los Angeles Monday evening.Mrs. Frances Latimore and Miss  
Latimore of Pasadena were guests of  
Mrs. Robert E. Maher on Tuesday.Greer Caskey returned home Tues-  
day from Livingston, Montana, where  
he has spent several months at the  
mines.Mr. and Mrs. E. S. Stilson and chil-  
dren have returned from Hermosa  
Beach, where they spent the summer  
months.Misses Ethel and Neome Stinson of  
Los Angeles are week-end guests at  
the home of Mr. and Mrs. W. H. In-  
graham.Miss Helen Wright of Wheeler  
Heights has returned to her home in  
Boston after spending three years in  
Sierra Madre.Mr. and Mrs. Guy H. Johnson were  
dinner guests at the home of Mr. and  
Mrs. J. T. Mason of Los Angeles  
Wednesday evening.Mr. and Mrs. E. C. Carhart, who have  
just returned from a trip through the  
north, were guests at the home of Mr.  
George Lettau on Sunday.Judge and Mrs. Paul McCormick,  
Mrs. McCormick's mother and Mr.  
James Irwin of Los Angeles were  
guests of Mrs. Lund at El Reposo on  
Sunday.Howard Hill has returned from Liv-  
ingston, Montana, where he has spent  
several months at the mining property  
in which several Sierra Madre people  
are interested.Miss Hilda Humphries, who returned  
recently from a three-months trip  
through the Orient, spent the week end  
at the home of her parents, Mr. and  
Mrs. George Humphries.Curtis Flint celebrated his eleventh  
birthday last Saturday afternoon at the  
home of his parents, Mr. and Mrs. H.  
J. Flint, a merry party of eleven boys  
and eleven girls assisting. Games were  
enjoyed, after which refreshments were  
served.Mr. and Mrs. W. J. Lawless entertain-  
ed several friends at dinner last  
Friday evening preceding the meeting  
at the Woman's Club house. Los An-  
geles guests were Mrs. Cora Lewis,  
Mrs. S. N. Sterry, Mr. Lewis R. Works,  
Sierra Madre guests were Prof. and  
Mrs. E. T. Pierce, Mr. and Mrs. F. D.  
R. Moote.The Ladies' Missionary Society of the  
First Congregational church held an  
enjoyable meeting in the church  
parlors Tuesday afternoon, it being the  
first meeting of the new year. An in-  
teresting program arranged by Mrs.  
Emmerson, the president, was given.  
The subject was "India" and articles  
were read by Mmes. McDaniels, E. N.  
Mead, Anderson, E. Wood Davis, Ev-  
ans, Miss Johnson and Miss Fairbanks.  
There was a good attendance.C. Webb, C. L. Nourse, Misses E. D.  
Williams, Anna Price Simmons.The dance this evening at the club  
house will be the first of the season  
and a good attendance is expected. The  
patrons and patronesses will be Mr.  
and Mrs. J. R. Allen, Mr. and Mrs. E.  
S. Stilson, Mrs. W. J. Lawless and  
Mrs. G. H. Johnson.

Plans for the Chrysanthemum Fete to  
be held at the Woman's club house  
on the afternoons and evenings of No-  
vember 3 and 4 are being perfected  
rapidly. Everybody is invited to send  
in blossoms for the competition or for  
decoration. On Friday afternoon there  
will be judging of the exhibits and a  
thimble party at which Miss Annis E.  
Coffey, Mrs. T. E. Yerxa and Mrs. Er-  
nest Yerxa will be the hostesses. On  
Friday evening there will be a social,  
awarding of the ribbons by Mayor  
Jones, and a musical program. On  
Saturday afternoon there will be a  
card party at which Mrs. Cabot Yerxa,  
Mrs. Gaylord Martin and Mrs. Nourse  
will be hostesses. In the evening will  
be held the "Chrysanthemum Dance." A  
cotillion led by Mr. and Mrs. Guy  
Johnson, Miss Jean Woodward and Mr.  
W. J. Lawless will be danced from eight  
to nine. The ladies attending the danc-  
ing party are expected to wear gay  
kimonos, with chrysanthemums in  
their hair, and every man is expected to  
decorate his coat lapel with the same  
modest flower. It is hoped a large  
number of spectators will enjoy this  
pretty flower fete. Mrs. W. H. Ingraham  
is chairman of the committee in  
charge of the affair.

## CHANGE IN GAS COMPANY

Officials of the Southern Counties  
Gas Company of California held their  
annual meeting yesterday and elected  
O. B. Hinsdale, president of the com-  
pany, to succeed C. S. S. Forney. Hins-  
dale is a retired banker of Oregon, who  
has made his residence in Los An-  
geles. F. R. Bain was elected vice-  
president and general manager of the  
corporation, which controls the gas  
and lighting plants at Whittier, Or-  
ange, Santa Ana, Fullerton, El Monte,  
Arcadia, Monrovia, Azusa, Sierra Mad-  
re, Duarte, Glendora and Covina and  
which is extending to other small com-  
munities. Bain is one of the heaviest  
owners of the company.

News liners will help you sell, buy,  
rent, or find almost anything.

## J. A. MADDEN PASSES AWAY

Former City Attorney Succumbs at  
Phoenix After Operation

Word was received Wednesday  
morning of the death on Tuesday even-  
ing of J. A. Madden, at Phoenix,  
Arizona. Mrs. Madden had been called  
to his bedside by telegram, leaving  
here on Saturday upon receiving in-  
formation that his recovery was doubt-  
ful. He had been in failing health  
for some time and had gone to a hos-  
pital in Phoenix for an operation. He  
had suffered an attack of appendicitis  
a year or two previously and it was a  
recurrence of the old trouble, with  
some additional complications, that  
proved fatal.

Mr. and Mrs. Madden had resided  
in Sierra Madre about four years,  
coming here from Redondo Beach. He  
was a native of Iowa and a graduate  
of the law department of the Uni-  
versity of Michigan. Before coming  
to California he had been engaged in  
the practice of law in Montana. He  
had held the offices of recorder, clerk  
and attorney for the city of Sierra  
Madre. He had been absent from the  
city since last winter, when he be-  
came interested in a Mexican land  
project near Hermosillo, which was  
seriously embarrassed by the Mexi-  
can revolution. There seems little  
doubt that worry over financial dif-  
ficulties played a part in bringing his  
physical ailments to a fatal termina-  
tion. Mr. Madden possessed musical  
talent and many of the qualifications  
which attract warm friendships and  
news of his untimely end brought a  
shock to many people.

No word has been received from Mrs.  
Madden as to her plans. It is sup-  
posed, however, that she will take the  
remains to Iowa for interment at the  
old home in Lyons, where Mr. Mad-  
den's father still lives.

## CONGREGATIONAL SERVICES

First Congregational Church, Rev.  
James M. Campbell, D. D., pastor.  
Services for next Sunday will be as  
follows: Sunday School at 9:45 a. m.  
F. D. R. Moote, Superintendent. Morn-  
ing worship, 11 a. m. Subject of ser-  
mon, "Others." Christian Endeavor,  
6:45 p. m. Subject, "Why I believe the  
Bible." Leader, Mrs. McDaniels.  
Evening service at 7:30 o'clock.  
Subject of pastor's sermon the same  
as topic of Christian Endeavor meet-  
ing.

On Tuesday, October 17, the Ladies'  
Aid society will hold an all-day meeting  
in the church parlors.  
At the Wednesday evening prayer  
meeting the theme for meditation will  
be, "The church, and the world's  
needs."

## EPISCOPAL SERVICE

Church of the Ascension, the Rev.  
Dr. George H. Cornell, rector. Eight-  
eenth Sunday after Trinity. Holy  
Communion, 7:30 a. m. Sunday  
School, 9:45 a. m.; morning prayer and  
sermon, 11 a. m. All are cordially in-  
vited.

## SUNDAY SCHOOL PICNIC

Superintendent F. D. R. Moote of the  
Congregational Sunday School has ar-  
ranged a picnic for the scholars and  
teachers of the school, to take place  
on Saturday, October 21. Eastlake  
Park, Los Angeles, has been chosen  
as the place and a special car will  
be provided, leaving Sierra Madre at 9  
o'clock.

## LADIES

We shall close out our line of ladies'  
Julia Marlowe shoes which sell all  
over the United States for \$3.50. To  
make them go quickly we will sell  
them at \$2. The line is broken, the  
sizes running from 3 to 5. We also  
have some \$2 Julietts with rubber  
heels which we want to close out quick  
at \$1.40. Here are some bargains if  
you hurry. M. OLSEN, The Shoe Man.

CERTIFICATE OF CO-PARTNER-  
SHIP

We, the undersigned, hereby certify  
that we have heretofore formed a part-  
nership, and that we are now, and ever  
since such formation have been part-  
ners, doing a carriage and wagon-  
making, auto-repairing and painting  
business, under the firm name of Zenz  
Brothers; that the principal place of  
business of said partnership is Nos.  
240-242 San Pedro street, in the City of  
Los Angeles, County of Los Angeles,  
State of California; and that the names  
of all the members of said partnership,  
and their respective places of resi-  
dence, are as follows, to-wit:

John Zenz, residing at No. 1032 East  
55th Street, in the City of Los Angeles,  
County of Los Angeles, State of Cali-  
fornia.

Frank Zenz, residing at No. 1532 East  
55th Street, in the City of Los An-  
geles, County of Los Angeles, State of  
California.

Witness our hands this 21st day of  
September, 1911.

JOHN ZENZ,  
FRANK ZENZ.

State of California, County of Los An-  
geles, ss.

On this 22nd day of September in the  
year one thousand nine hundred and  
eleven, before me, H. F. Bridges, a no-  
tary public in and for said County of  
Los Angeles, State of California, per-  
sonally appeared John Zenz and Frank  
Zenz, known to me to be the persons  
whose names are subscribed to the  
within instrument, and acknowledged to  
me that they executed the same.

In witness whereof, I have hereunto  
set my hand and affixed my official  
seal the day and year in this certifi-  
cate first above written.

(Seal) H. F. BRIDGES,  
Notary Public in and for the County of  
Los Angeles, State of California.

## THE JESTING OF ROMANCE.

SOMEWHERE my princess waits, by throne or bower  
Or sunlit splendor of old phantom sea.  
Stoiled in a vesture of dim wizardry,  
Agaze from mystic haunted castle tower.

Romance! Not with the years hath failed  
thy power,  
For still thy golden vistas glint and  
flee,  
And still the faith in immortality  
is thine, bestowed in every lover's dream.

Somewhere my kingdom waits. Though  
years be slow,  
Nor haste nor fret shall any man avail,  
And in this endless questing least of  
all.

For, while our spirits falter not nor fail,  
Yet neither maid nor scepter shall be-  
fall  
As we have dreamed them. Is it better so?  
—H. Bedford Jones.

## CITY NEIGHBORS.

I hear their voices through the floor  
and wall,  
I hear their footsteps passing ever-  
head.  
I brush against them in the com-  
mon hall,  
But never knew the child down-  
stairs was dead,  
Such strangers are my neighbors,  
till I saw  
As I passed by white ribbons on the  
door.  
—Maud Going In Success

## THE TENTS OF BOHEMIA.

WE who are weary,  
We who are lost,  
Gather at night,  
And we are as boats  
On a black wave too,  
And have no light.

O plying moon,  
We have shut you out  
With a tent of words,  
But I would we were  
As a ghostly herd  
Or as shadowy herds!

We have turned from the stars  
And the wandering clouds  
And the color of night,  
And we chatter and drink  
In the dark that shrouds  
The wandering light.

Oh, the open fields,  
Where the color of night  
Moves over dark trees  
And the flood of the moon  
To the eyes gives sight,  
To the soul gives peace!  
—Shaemas O'Shael.

## GAINS FOR ALL OUR LOSSES.

THERE are gains for all our losses;  
There are gains for all our pains,  
But when youth, the dream, departs  
It takes something from our hearts,  
And it never comes again.

WE are stronger and are better  
Under manhood's sterner reign,  
Still we feel that something sweet  
Followed youth with flying feet  
And will never come again.

SOMETHING beautiful has vanished,  
And we sigh for it in vain.  
We behold it everywhere,  
On the earth and in the air,  
But it never comes again.  
—Richard Henry Stoddard.

## "NOBODY KNOWS IT."

"NOBODY knows it!" Well, what  
if it's true  
That nobody knows your trans-  
gressions but you?  
If you've sinned the time's com-  
ing, you'd give the world's  
peep.

For the power to forget what you know  
of yourself,  
In the favor of kings you'll then find lit-  
tle worth.  
Though your praises should ring to the  
ends of the earth.

But ever and ever there's some one—it's  
odd—  
There is somebody knows it besides you  
and God.

Was there ever a secret that nobody knew  
Outside of its guilty possessor? But few  
Are allowed the illusion and ignorant  
stand,  
Like ostriches hiding their heads in the  
sand.

"Nobody knows it!" That treacherous  
reel  
Has wrecked human lives beyond count  
or belief.

The roar of those breakers, once given  
control,  
Drowns the sound of the bell buoy of con-  
science or soul.  
"Nobody knows it!" Ah, wormwood and  
rue!

Chained to an act you can never undo.  
—Cora M. W. Greenleaf.

## VANITIES.

How cruel a thing is wrath!  
Some farthest unkind ripple of our  
rage  
Must beat against the one our heart  
would shield.

How idle a thing is grief!  
Since endless tears call back not  
one small flower  
That drifted to its death the sum-  
mer gone.

How futile a thing, revenge!  
Since our smoldering heart hid  
hate flares high  
All those who wronged us are but  
still, spent clay.  
—Maud Springer Nesom in Mc-  
Clure's.

## MEN AND THE WINDS.

THINK oftentimes that lives of men may  
be  
Likened to wandering winds that come  
and go,  
Not knowing whence they rise, whither  
they blow

O'er the vast globe, voiceful of grief or  
glee,  
Some lives are buoyant zephyrs sporting  
free  
In tropic sunshine; some, long winds of  
woe

That shun the day, walling with mur-  
murs low  
Through haunted twilight, by the unrest-  
ing sea.

Others are ruthless, stormful, drunk with  
might,  
Born with deep passion or malign de-  
sign;  
They rave mid thunder peals and clouds  
of fire.

Wild, reckless all, save that some power  
unknown  
Guides each blind force till life be over-  
blown,  
Lost in vague hollows of the fathomless  
night.  
—Paul Hamilton Hayne.

## LAUDS MT. WILSON SCIENTIST

Boston Paper Reviews Career of Prof.  
Walter Adams

Prof. Walter S. Adams of the Mt. Wilson Observatory returned recently from Europe and the East. A brief stop in Boston was the occasion of a sketch of his career which appeared in the Boston Herald. Prof. Adams, who is a Fellow of the Royal Astronomical Society, of England, acted as director of the Mt. Wilson Observatory of the Carnegie Institution during the recent protracted illness of Dr. George E. Hale.

The Herald says of him: "He is widely known in astronomical circles for his extraordinary attainments in advanced mathematics and in solar and stellar research. He was born in 1876 in Asia Minor, where his father, the Rev. Lucien H. Adams, of Derry, was stationed for many years as a missionary of the American Board. Prof. Adams pursued his studies in Pinkerton Academy, Derry, and St. Johnsbury Academy, graduating from Dartmouth College in 1898. After a year of post graduate study in advanced mathematics at Munich, he became associated with Professor George E. Hale, the noted astro-physicist, then director of Yerkes Observatory at Williams Bay, Wisconsin. He accompanied Professor Hale to Mt. Wilson, California, where he assisted in the establishment and develop-ment of the remarkable solar observatory, which has been supported from the start by grants from the Carnegie Institution. Prof. Adams has been in active charge of the solar observatory for more than a year, during the illness of Director Hale.

"The Mt. Wilson Observatory occupies the finest site in this country for solar observations, and its equipment is unequalled in its special field. It was viewed by astronomers from all over the world a year ago when the annual meeting of the international union for co-operation in solar research was held at Pasadena. Work upon the wonderful eight-foot lens, which will be used in the largest reflecting telescope in the world, is proceeding rapidly and its completion will enable the observatory staff to in-crease still further the store of knowledge regarding the sun and problems of stellar evolution, to which the solar observatory has already made such notable contributions."

## HOW TO KEEP MEDICINES.

Suggestions For Avoiding Accidents In  
Handling Drugs.

Keep medicines in a wall closet so high as to be wholly out of reach of childish hands. Have double doors to it, each with a separate and secure lock, catching in a bar at the middle. All the inside ought to be cut up into pigeonholes, in one side keep every sort of stuff that is even remotely poisonous.

In the other store such standard things as calomel, borax, bicarbonate of soda, prepared chalk, Dover's powder, blue mass, quinine, castor oil, rhubarb, epsom, rochele and Carlsbad salts, alum, dry coppers, spirits turpentine, spirits camphor, alcohol, whiskey, brandy, all the family of herbs and barks, lint, bandages, finger stalls, adhesive plaster, burn salves, healing salves, dry mustard and healing lotions. Keep everything in bottles, wide mouthed bottles, with either screw tops or ground glass stoppers. Wrap the medicine bottles in blue paper to exclude light and label them outside in addition to labeling the bottles.

Never put a half used prescription or any medicine of unknown composition in this closet. Throw away any compound left over. There is no telling what changes time may work in it. Upon the poison side keep opium, laudanum, morphine, cocaine, dry bluestone, white vitriol, flowers of sulphur, paris green, dry corrosive sublimate, dry chloride of lime, all the family of acids—oxalic, nitric, sulphuric, carbolic—ether, chloroform, tartar emetic or any other substance capable of harm.

Each substance should be in a tightly stoppered bottle or tin or wooden box, so well closed air cannot get in or out. This half of the closet must be kept always locked and should have a single key, always in possession of the house mistress and seldom trusted out of her sight.

## HOW TO USE AMMONIA.

Many Ways In Which It Proves Help-  
ful In The Household.

In housekeeping ammonia has many uses. It is an efficient help about the wardrobe. Black material sponged with a cupful of water in which a teaspoonful of ammonia has been mixed will renew its freshness, while black silk will lose its objectionable shininess by such a sponging. A little ammonia will remove grease from collars and when rubbed over corsets will cleanse them to a nicety.

When mixed with equal parts of turpentine ammonia will remove paint stains from cloth. If the paint be stubborn it may require several applications before the work is done. Per-severe. Nothing is so good for boys' tweed suits as to sponge them with the ammonia mixture. For toilet use a small quantity will soften the water in which the hair is washed and aid in cleansing the scalp.

It renders the bath delightful, and carpets when thoroughly gone over with ammonia and water are surprisingly restored to something like their original freshness. When mixed with white wax and turpentine it makes the best of polishes for the floor. To relieve the pain and prevent inflammation resulting from the bites and stings of summer insects ammonia ranks first as a cure.

## CERTIFICATE OF BUSINESS

Fictitious Firm Name

The undersigned does hereby certify that he is conducting a newspaper and printing business at Room G, Kersting Court, Sierra Madre, California, under the fictitious firm name of Sierra Madre News, and that said firm is composed of the following person, whose name and address is as follows, to-wit: George B. Morgridge, Sierra Madre, California.

Witness my hand this 11th day of October, 1911.

GEORGE B. MORGRIDGE.

State of California, County of Los Angeles, ss.

On this 11th day of October, in the year of our hundred and eleven, before me, A. S. Mead, a Notary Public in and for said County, residing therein, duly commissioned and sworn, personally appeared George B. Morgridge, known to me to be the person whose name is subscribed to the within instrument and acknowledged to me that he executed the same.

Witness my hand and official seal, (Seal) A. S. MEAD,  
Notary Public in and for said County of Los Angeles, State of California.

## ORDINANCE NO. 149

An Ordinance calling a special election to be held in the City of Sierra Madre, on the 7th day of November, 1911, for the purpose of submitting to the qualified voters of said city a certain proposition to incur a bonded indebtedness in the sum of One Hundred and Eleven Thousand Dollars (\$111,000) to pay the cost of a certain revenue producing municipal improvement, to-wit: The acquisition of a certain supply and distributing system of water works owned by the Sierra Madre Water Company, a corporation, and the acquisition and construction of certain improvements to said system of water works; providing for the issue of bonds of said city for said municipal improvement, and for the levy of a tax for the payment of said bonds; establishing an election precinct for said special election, designating a polling place therefor and appointing the election officers for said election.

WHEREAS, the Board of Trustees of the City of Sierra Madre at a regular meeting of said board held on the 10th day of August, 1911, by a vote of two-thirds of all its members, duly passed and adopted a resolution determining that the public interest and necessity demand the acquisition and construction by the City of Sierra Madre of a certain revenue producing municipal improvement more particularly described as follows, to-wit:

The acquisition by the said City of Sierra Madre of the property, real and personal, constituting or appertaining to the supply and distributing system of waterworks owned by the Sierra Madre Water Company, a corporation, in supplying water to the inhabitants of the said City of Sierra Madre for domestic and irrigating purposes, and to said city for municipal purposes, which said system of waterworks is owned by the said Sierra Madre Water Company, the estimated cost of which said supply and distributing system of waterworks is Ninety-six Thousand Dollars; the acquisition and construction by the said City of Sierra Madre of certain improvements to said supply and distributing system of waterworks, including the acquisition of lands, waters, water rights, rights of way and other property, the construction of aqueducts, conduits, ditches, canals, tunnels, water mains, pipes, reservoirs and other works necessary therefor, the estimated cost of which said improvements to said supply and distributing system of waterworks is Fifteen Thousand Dollars;

AND WHEREAS, said resolution was thereafter, to-wit, on the 10th day of August, 1911, approved by the executive of said municipality, to-wit, the President of the Board of Trustees of the said City of Sierra Madre;

AND WHEREAS, the estimated cost of the acquisition and construction of said revenue producing municipal improvement by the City of Sierra Madre, to-wit, the acquisition of the aforesaid supply and distributing system of water works owned by the Sierra Madre Water Company, a corporation, and used by said company in supplying water to the inhabitants of said city for domestic and irrigating purposes, and to said city for municipal purposes, and the acquisition and construction of certain improvements to said system of waterworks, is One Hundred and Eleven Thousand Dollars (\$111,000) and that such cost is and will be too great to be paid out of the ordinary annual income and revenue of said city; and the said revenue producing municipal improvement, to-wit: The acquisition of said supply and distributing system of waterworks by the said Sierra Madre Water Company, and the acquisition and construction of said improvements to said system of waterworks, is necessary and convenient to carry out the objects, purposes and powers of said City of Sierra Madre in supplying its inhabitants with water;

NOW, THEREFORE, the Board of Trustees of the City of Sierra Madre do ordain as follows.

Section 1. That a special election be, and the same is hereby called to be held, and such special election shall be held, in the City of Sierra Madre on the 7th day of November, 1911, for the object and purpose of submitting to the qualified voters of said city the proposition of incurring a debt for the purpose set forth in said resolution and as hereafter stated, and such proposition shall be submitted to the qualified voters of said city at said special election.

Sec. 2. That the object and purpose for which said debt is proposed to be incurred is the following to-wit: The acquisition by the said City of Sierra Madre of the property, real and personal, con-

stituting or appertaining to the supply and distributing system of waterworks owned by the Sierra Madre Water Company, a corporation, in supplying water to the inhabitants of the said City of Sierra Madre for domestic and irrigating purposes, and to said city for municipal purposes, which said system of waterworks is owned by the said Sierra Madre Water Company, the estimated cost of which said supply and distributing system of waterworks is Ninety-six Thousand Dollars;

The acquisition and construction by the said City of Sierra Madre of certain improvements to said supply and distributing system of waterworks, including the acquisition of lands, waters, water rights, rights of way and other property, the construction of aqueducts, conduits, ditches, canals, tunnels, water mains, pipes, reservoirs and other works necessary therefor, the estimated cost of which said improvements to said supply and distributing system of waterworks is Fifteen Thousand Dollars.

Sec. 3. That the estimated cost of said proposed municipal improvement above described, to-wit, the acquisition of said supply and distributing system of water works owned by the Sierra Madre Water Company, a corporation, and the acquisition and construction of said improvements to said system of water works hereinbefore mentioned, is One Hundred and Eleven Thousand Dollars (\$111,000). That the amount of the principal of the indebtedness to be incurred therefor is the sum of One Hundred and Eleven Thousand Dollars (\$111,000); and that the maximum rate of interest to be paid upon such indebtedness is five per cent per annum, payable semi-annually, which rate of interest shall not be exceeded in the issuance of bonds for such indebtedness.

Sec. 4. That if the proposition of incurring the indebtedness of said city for said purpose so submitted at such election receives the requisite number of votes, to-wit, two-thirds of the votes of the qualified voters of said city voting at such election, bonds of said city in the amount of One Hundred and Eleven Thousand (\$111,000) Dollars shall be issued and sold for the purpose of the acquisition and construction of the supply and distributing system of water works owned by the Sierra Madre Water Company, a corporation, and the acquisition and construction of certain improvements to said system of waterworks, to-wit:

The acquisition by the said City of Sierra Madre of the property, real and personal, constituting or appertaining to the supply and distributing system of waterworks owned by the Sierra Madre Water Company, a corporation, in supplying water to the inhabitants of the said City of Sierra Madre for domestic and irrigating purposes, and to said city for municipal purposes, which said system of waterworks is owned by the said Sierra Madre Water Company, the estimated cost of which said supply and distributing system of waterworks is Ninety-six Thousand Dollars;

The acquisition and construction by the said City of Sierra Madre of certain improvements to said supply and distributing system of waterworks, including the acquisition of lands, waters, water rights, rights of way and other property, the construction of aqueducts, conduits, ditches, canals, tunnels, water mains, pipes, reservoirs, and other works necessary therefor, the estimated cost of which said improvements to said supply and distributing system of waterworks is Fifteen Thousand Dollars, as mentioned and described in said resolution of the said Board of Trustees hereinbefore mentioned and referred to.

Said bonds shall bear interest at a rate not exceeding Five (5) per centum per annum, payable semi-annually, and the principal and interest thereof shall be payable in gold coin of the United States.

Sec. 5. That for the purpose of paying the principal and interest of said bonds the Board of Trustees of said City shall at the time of fixing the general tax levy, and in the manner for such general tax levy provided, levy and collect annually each year until such bonds are paid, or until there shall be a sum in the treasury of said city set apart for that purpose to meet all sums becoming due for the principal and interest on said bonds, a tax sufficient to pay the annual interest on the principal thereof as shall become due before the time for fixing the next general tax levy; provided, however, that if the maturity of the indebtedness created by the aforesaid issue of bonds be made to begin more than one year after the date of the issuance of such bonds, then the tax for the purpose of paying the principal and interest of the bonds the maturity of which is so deferred, shall be levied and collected at the time and in the manner aforesaid annually each year, sufficient to pay the interest on such indebtedness as it falls due, and also to constitute a sinking fund for the payment of the principal thereof on or before maturity. Said tax shall be in addition to all other taxes levied for municipal purposes, and shall be collected at the same time and in the same manner as other municipal taxes are collected, and be used for no other purpose than the payment of said bonds and accruing interest.

Sec. 6. The polls of said election shall be opened at six o'clock of the morning of the day of the election, and shall be kept open until six o'clock in the afternoon of said day, when the polls shall be closed.

Sec. 7. The ballots to be used at said election shall be printed in the following form:

No. ....

## INSTRUCTIONS TO VOTERS:

To vote for a candidate of your selection, stamp a cross (X) in the voting square next to the right of the name of such candidate. Where two or more candidates for the same office are to be elected, stamp a cross (X) after the names of all the candidates for that office for whom you desire to vote not to exceed, however, the number of candidates who are to be elected. If the ballot does not contain the names of candidates for all offices for which you may desire to vote you may vote for candidates for such offices so omitted, by writing the name of the candidate for whom you wish to vote in the blank space left for that purpose. To vote for a person not on the ballot, write the name of such person under the title of the office in the blank space left for that purpose.

To vote on any question, proposition or constitutional amendment, stamp a cross (X) in the voting square after the word "Yes" or after the word "No." All marks, except the cross (X) are forbidden. All distinguishing marks or erasures are forbidden and make the ballot void.

If you wrongly stamp, tear or deface this ballot, return it to the inspector of election and obtain another.

Shall the City of Sierra Madre incur a bonded debt of \$111,000 for the purpose of acquiring the supply and distributing system of water works owned by the Sierra Madre Water Company and used by said company in supplying water to the said City of Sierra Madre and to its inhabitants, and acquiring and constructing certain improvements to said system of water works, including the acquisition of lands, waters, water rights, rights of way, and other property, the construction of aqueducts, conduits, ditches, canals, tunnels, water mains, pipes, reservoirs and other works necessary therefor?

YES

NO

Sec. 8. If an elector shall have stamped a cross (X) in the voting square after the printed word "Yes," his vote shall be counted in favor of the adoption of the proposition; if he shall have stamped a cross (X) in the voting square after the printed word "No," his vote shall be counted against the adoption of the same.

Sec. 9. That in all particulars not recited in this Ordinance said special election shall be held as provided by law for holding municipal elections in said City.

Sec. 10. That for the holding of said special election the whole of said City of Sierra Madre is hereby precinctized into one special election precinct, to be known as Special Election Precinct No. 1, which said Special Election Precinct No. 1 embraces all of the precincts which existed for the holding of the last preceding general State election in said City, the said City having heretofore been precinctized into but one precinct; that the boundaries of said Special Election Precinct No. 1 are the boundaries of said City of Sierra Madre, and said Special Election Precinct No. 1 is coextensive with the corporate limits of said City of Sierra Madre; that the polling place of said Special Election Precinct No. 1 is hereby established at the City Hall of the City of Sierra Madre; that the compensation of the Officers of Election for said Special Election Precinct No. 1 for all services performed by said Officers of Election at said special election is hereby fixed at the sum of Three (\$3.00) Dollars each, and the following named persons are hereby appointed Officers of Election for said Special Election Precinct No. 1 for said election, to-wit:

Judges: A. S. Caskey, Democrat; E. N. Mead, Republican.

Inspectors: S. R. Norris, Democrat; F. O. Nichols, Republican.

Clerks: Jesse L. Dunn, Democrat; J. A. Patterson, Republican.

Ballot Clerks: J. A. Kramer, Democrat; S. H. Spafford, Republican.

Sec. 11. That the City Clerk of said City of Sierra Madre shall certify to the passage of this ordinance by a vote of two-thirds of all the members of the Board of Trustees of said city, and to its approval by the executive of said city to-wit, by the President of the said Board of Trustees of said city; and said City Clerk shall cause this ordinance to be published once a week for two successive weeks in the "Sierra Madre News," the same being a newspaper of general circulation printed and published less than six days a week, to-wit, weekly, in said

City of Sierra Madre. No other notice of said election than the aforesaid publication for two weeks of this ordinance in said newspaper as aforesaid need be given, and one insertion of said ordinance each week for two successive weeks shall be sufficient publication of this ordinance for all purposes.

Passed, adopted and approved this 28th day of September, 1911.

I hereby approve the foregoing Ordinance, No. 149, this 28th day of September, 1911.

C. W. JONES,  
President of the Board of Trustees and executive of said City of Sierra Madre, California.

ATTEST:  
(Seal) C. H. PERRY,  
City Clerk of said City.

State of California, County of Los Angeles, City of Sierra Madre, ss.

I hereby certify that the whole number of members of the Board of Trustees of the said City of Sierra Madre is five, and that the foregoing Ordinance, No. 149, was presented and read to said Board, and introduced by Trustee Hosmer at a regular meeting of said Board on September 14, 1911, and that said Ordinance was passed and adopted by the affirmative vote of more than two-thirds of all members of said Board at a regular meeting of said Board held on the 28th day of September, 1911, and that said ordinance was so passed and adopted by the following vote, to-wit:

Ayes: Trustees Hosmer, Pegler, Steinberger and Jones.

Noes: None.

Absent: Trustee Graham.

And I further certify that said Ordinance was, on said 28th day of September, 1911, signed and approved by C. W. Jones, President of said Board of Trustees and executive of said city, and that said ordinance was attested by me, as City Clerk of said city, with the seal of said city, this 28th day of September, 1911.

WITNESS my hand and the seal of said city this 28th day of September, 1911.

ATTEST:  
(Seal) C. H. PERRY,  
City Clerk of the City of Sierra Madre, California.

## THE STORY OF JIM CROW.

By JAMES SPEED.

On numerous occasions in the early part of the summer I had heard strange low sounds from the heavy beech woods. The strangeness and the rather conversational quality of the notes fixed my attention, and at length I determined to investigate. At first I thought it an animal, then I concluded it must be a bird.

My curiosity was now thoroughly aroused, and I determined to spend a whole afternoon if necessary in discovering the source of the noise which came constantly from the timber when I was not there. Seating myself at the base of a giant beech after dinner, I waited patiently. I dozed and was aroused by the strange guttural sounds

READY TO FLY.

coming from immediately overhead. Cautiously I looked above me among the closely woven mass of leaves and saw two crows evidently talking to each other. They were perched near a large bunch of trash and twigs, which I knew must be their nest. As I arose they saw me and, uttering their loud, shrill notes of alarm, flew away. The next day I climbed into the old beech to see what the nest contained and found four youngsters almost ready to leave home. In fact, one was so independent that he was sitting on the edge looking about as though ready to fly away. I had heard so much of the odd ways of pet crows that I took him home with me.

At first the little fellow looked lost and ill at ease in his new surroundings, in a soap box on the back porch. I offered him food of all kinds, but he paid no attention to it. He made no noise, but sat stolidly winking and blinking his pale blue eyes at me as much as to say, "Well, I don't see how you are going to make me take it."

I soon saw that unless I forced him to eat he would die, and I felt very responsible for him after stealing him from his parents. I obtained some bread and soaked it in water and put it into his mouth. He did not swallow, but sat for a moment wondering what to do. Suddenly he threw his tongue forward, opened his mouth and with a side jerk of his black head sent it out. Then I forced the food down him. In a few days I almost wished I had allowed the rascal to starve, for he seemed to wish food all day long and yelled and screamed whenever I came in sight.

When I say that Jim became a great pet it hardly expresses our relationship, for he took every one about the place into his confidence. He would,

JIM CROW IN FAMILIAR MOOD

without the least warning, alight upon one's arm or hand in the most familiar fashion and at once demand that one stop everything and hunt beetles or worms for his pleasure. He was much interested in the chickens about the place, but they invariably resented all of his advances. Once or twice when he was sitting on the edge of a bucket under the pump getting a drink a hen slipped up behind him and with a quick stroke turned him heels over head into the water.

Even this treatment by the hens did not seem to curb his desire to secure a better acquaintance with them. At length he went too far and tried to pick up a young game chicken. In an instant the old hen and Jim were a mass of tangled feathers, and when I parted them Jim was sadly upset. Two days later we buried Jim in the garden close by where we had dug him many, many worms.

## HOW TO PROTECT EYES.

Women Should Wear Hats That Shade the Face in Summer.

Strong sunlight causes wrinkles, a fact many women have learned too late to their sorrow. Once thoroughly established, these telltale furrows, the unmistakable imprint of the finger of time, are very difficult to eradicate, requiring constant effort, even great physical discomfort, to entirely erase.

A certain amount of sunlight is good for the skin and for the eyes. No one of nature's elements, if used with discretion, will act as a destructive power to the body. The trouble with the sunlight cure is that it is too often taken in overdoses. Notice on a particularly bright day, a day when the sun's rays are almost metallic in their strength, how the eyes of the people you meet are squinted in an effort to alleviate the pressure on the nerves of sight.

This squinting process causes innumerable little wrinkles to appear about the eyes and across the bridge of the nose. Holding the face in this strained position easily becomes a habit, and once it is a habit the damage is done.

One of the best ways to prevent injury to the eyes as well as a premature mask of age is the wearing of a hat that will shade the eyes. Persons whose work compels them to be much out of doors during the summer months should select a hat with a broad or drooping brim. Despite the fact that much fun has been poked at the bushel basket hat of fashionable moment, it is much more sensible for summer wear than the peach basket variety that struggles up close to the hair and leaves the blazing sun to burn its way across the face and eyes.

Women have the added protection of a parasol, a bit of feminine frippery that has its mission of service as well as of beauty. Lacking this recourse, men should select soft hats that turn down over the eyes, wide brimmed sailors or panamas, for a prematurely furrowed face no more becomes a man than it does a woman.

In extreme cases use glasses with slightly darkened lenses and observe what a rest they will confer upon the tired sun-strained eyes.

In the summer time the eyes should be treated to a daily bath of boracic acid, for dust and particles of dirt are blown into them, and danger to the eyeball ensues. A bath of warm water in which has been dissolved a little boracic acid will work wonders in keeping the eyes in good condition during the summer season.

**How to Stop Smoking.**  
Do not light the first cigar less than half an hour after breakfast. The more difficult this delay may be the more need there is for a cure. The remainder of the day smoke as usual. It is only the first cigar with which we are dealing. Keep this up for a week, then lengthen the interval to an hour for another week, then make it one and a half hours, two, two and a half, and so on. If you have an "all gone" sensation, a longing for something and don't know what sort of feeling, eat an orange or apple or almost any kind of fruit, but don't smoke until the time is up. The nerves, being deprived of their morning stimulant, are crying for nourishment, which nature is hastening to supply through increased appetite to supply digestion. By the time the first cigar is entirely eliminated the cure is effected with no serious disarrangement of the heart or digestive apparatus. It now requires only a moderate will power to make the cure permanent.—St. Louis Post-Dispatch.

**How to Clean White Silk Gloves.**  
To clean white, delicate silk gloves with fuller's earth, draw them on the hands smoothly and wash your hands and arms literally in the powder, rubbing the hands again precisely as you would with soapsuds; shake off this dirty powder and draw off the gloves. You will find that the hands and arms are sprinkled with dust and grime which have sifted through the gloves. Clean the hands and arms, shake the gloves wrong side out and repeat the operation; twice or three times will be sufficient to clean the gloves.

White silk gloves that are washed with soap and water become yellow unless the water is kept at an equable and low temperature. Besides, the water causes them to shrink.

**How to Take Raw Eggs.**  
An invalid who has been compelled to subsist largely on a diet of raw eggs has found several ways of making them more appetizing. When a little lemon juice is squeezed over a raw egg, she says, the flavor reminds her of oysters. For a change she uses orange juice and has the whole beaten to a stiff froth. Raw egg whites she manages to consume without pain by mixing them with the juice of an orange and some chopped or crushed ice. So treated, she says, the taste of the egg is not perceptible.

**How to Take Out Grease.**  
Magnesia will take grease spots out of carpets and rugs. Get a block of it from the drug store for 5 cents, scrape it with a knife into fine powder and lay this on the grease spot, covering it entirely. Rub it in a little, and let it stand overnight. Remove it the next day with a clean whisk broom, and the spot will be gone.

**How to Restore Chairs.**  
To clean and restore the elasticity of cane bottom chairs, turn the chair and with hot water and a sponge saturate the cane work thoroughly. If the chair is dirty use soap. Afterward set the chair to dry out of doors and the seat will be taut as when new.

## PRIMITIVE NICARAGUA.

Cedar Canoes Almost the Only Means of Transportation.

Nicaragua is far behind in railroad development. The only tracks are those in western Nicaragua, from the port of Corinto to Managua, the capital, and one or two places near by. As regards transportation eastern Nicaragua is almost as primitive as in the days of Cortes. There are no railroads in this section of the country. On the Escondido river freight is handled by steam paddle wheel boats of the old Mississippi type. Above the town of Rama the freight must be handled by Indians in their canoes or "pit pans." In all the small rivers the freight is handled in these pit pans. One is astonished at the skill displayed by the Indians in the handling of these boats. All the freight that has been carried in to develop the several mines has been handled in this way. When one sees the machinery at work at the mines it seems almost impossible to believe that such heavy burdens could have been brought up the river in these canoes.

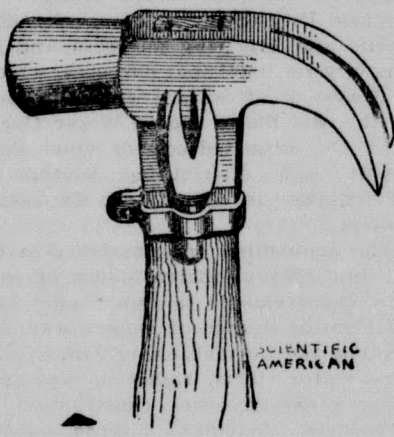

The size of the pit pans varies considerably, from a one man craft to a boat requiring sixteen men. The giant cedars from which the large canoes are made are getting rather scarce and in recent years have gone up in price threefold. The Indians show the same skill in making these boats that was displayed by their ancestors. These red men use long, rather heavy paddles in handling their canoes and are experts at paddling. Their endurance is incredible. I have seen them go for six or seven days with only snatches of sleep.

Fortunately for Nicaragua there are many streams in the country, so that the freight can be carried rather close to the mines in a canoe. In eastern Nicaragua there are no roads, only trails through the forests. To go over one of these trails in the height of the wet season is an experience the engineer can never forget. How he longs for a railroad! Every step the mule takes he sinks into the mud and slime, and he drags himself through the filth at the rate of two miles an hour. If a man wants to enjoy the luxuries of modern travel he should go down to Nicaragua and go over these "sloughs of despond" on top of a mule.—T. Lane Carter in Engineering Magazine.

## HAMMER ATTACHMENT.

Clip Holds Nail in Place For the Initial Blow.

The accompanying illustration is almost self explanatory. A tongue of metal shaped as shown with a V-shaped slot in the upper half is clamped on to the handle of a hammer

NAIL HOLDER FOR HAMMER.

just below the head with an ordinary hose clamp. The V shaped slot should be held slightly away from the flat side of the hammer.

When it is desired to drive a nail in a location where both hands cannot reach, for instance, above the head or to the right or left when standing on a ladder the nail is placed in the slot with the head against the hammer head and the point extending to the side. A sharp blow starts the nail and on withdrawing the hammer the nail can be driven home.

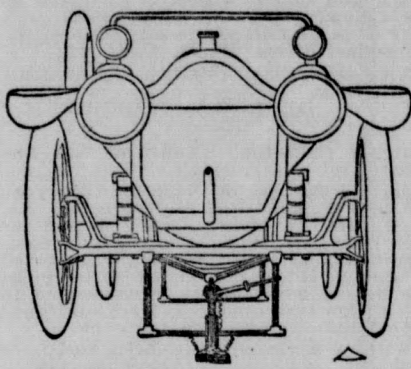

**White Water.**  
In a recent plot chart of the British meteorological office many observations of the singular phenomenon called "white water" are collected. It is more frequently seen in the tropical parts of the Indian ocean than anywhere else, and it impresses some observers as weird, ghastly and awe inspiring. The ocean has a milky look, and the ship seems to be passing through a kind of luminous fog, in which sea and sky appear joined and the sense of distance is lost. The phenomenon is believed to be due to some form of phosphorescence, but a satisfactory explanation of it is yet lacking.

**The New Armor Plate.**  
The Simpson armor plate, of which we hear so much today, is broadly similar to the old compound armor plate, which was formed by welding a hard steel face upon a soft steel or iron backing. The armor was imperfect, the face breaking away from the backing when struck by a projectile. Simpson secures a bond by welding a thin plate of copper in between the two layers of steel. A 25 per cent superiority is claimed over Krupp armor, this being due to the thicker face that can be welded on by this process.

**Depth of Ore Deposits.**  
There is little or no ground for the belief that the valuable metallic deposits lie very deep in the earth's crust. With few exceptions, ore deposits become too lean to repay working below 3,000 feet. Nine mines in ten, taking the world as a whole, are poorer in the second thousand feet than in the first thousand and poorer yet in the third thousand than in the second.

## Automobile Jack.

An automobile jack designed to lift all four wheels at once is one of the recent inventions for the benefit of motorcar drivers. The jack comprises two frames constructed of steel uprights and held rigid by heavy steel

JACK LIFTS THE ENTIRE CAR.

crossbars and having bases connected by several feet of chain. The frames are tilted at an angle under the front and rear axles, and the differential screw pushes the car backward a few inches, thus bringing the frames into a vertical position and elevating both front and rear axles at the same time.

## Life Rings on a Mountain.

An extraordinary example of the way in which a mountain may afford on a small scale an image of the earth's climates, arranged in successively higher circles, has been found in the San Francisco peaks. These ancient volcanoes rise out of a plateau having a mean elevation of 7,000 feet above sea level. The peaks are encircled with zones of vegetation which run almost like contour lines around them. Between 6,500 and 8,500 feet the yellow pine is the dominant tree. From 8,500 to 10,300 feet the Douglas fir, the silver fir, the cork fir and the aspen share the available ground. Between 10,300 and 11,500 feet the Engelmann spruce and the foxtail pine take possession and ascend to the tree limit.

## Use For Tomato Seeds.

The seeds of the tomato have been regarded as a waste material around the canneries, and the problem has been to get rid of the accumulation economically, but a valuable function of the tomato seed has been recently discovered in Italy, where the oil from it is said to have been found especially desirable in the manufacture of varnish. This oil has the quality of drying rapidly and has other superiorities

**Marlin**  
Model 1894  
Repeating Rifle

This rifle is built for settled districts, where good range and killing power are desired, with safety to the neighborhood.

The Marlin 25-20 is a light, quick-handling, finely-balanced repeater, with the solid top, closed-in breech and side ejection features which make Marlin guns safe and agreeable to use and certain in action.

It is made to use the powerful new high velocity smokeless loads with jacketed bullets as well as the well-known black powder and low pressure smokeless cartridges, and is the ideal rifle for target work, for woodchucks, geese, hawks, foxes, etc., up to 300 yards.

This rifle and ammunition, and all other Marlin repeaters, are fully described in our 136-page catalog. Free for 3 stamps postage.

**The Marlin Firearms Co.,**  
42 Willow Street, NEW HAVEN, CONN.

**6 LIGHTNING SHOTS**

That's what you get if you use the Stevens Repeating Shotgun No. 520. The repeating action is so simple that you can work it with only your thumb and finger.

No matter how fast you pump this gun you cannot possibly load or clog it.

The empty and the loaded shells travel by two separate routes. There is no chance for them to meet and jam.

If your dealer hasn't it, we will send, express prepaid, on receipt of List Price, \$27.00.

AUTOLOADING RIFLE

Five one-ton shots! As quick as you can pull the trigger and as straight to the mark as you can look.

Meeting a "big gun" with this gun is like shooting a hole in a barn from the inside—and if the first ball shouldn't stop him, he can't gain a yard before he gets it again.

Remington Autoloading Rifle—solid breech, hammerless—ejects, reloads and cocks by recoil without the loss of an ounce of muzzle energy. The only automatic rifle which locks the cartridges in the chamber. Safest and best of big guns.

Made in .25, .30-30, .32 and .35 Remington calibres. "The Gun for the game Game." Inspect it at any dealers.

"Game Laws for 1910" mailed free.

**THE REMINGTON ARMS COMPANY, Agency: 230 Broadway, New York City**

**NEWS WANT ADS BRING RESULTS**

**A Hail-Storm of Lead**

The Stevens Visible Loading Repeating Rifle No. 70 shoots 15 shots fast.

Each cartridge as it comes out of the magazine and goes into the chamber shows plainly before your eyes.

You don't have to think whether the rifle is loaded or not—you know.

Guaranteed to be the most accurate .22 Caliber Repeating Rifle in the world.

Made in two styles. One takes .22 short cartridge only. The other takes any one of three cartridges—22 Short, .22 Long and .22 Long Rifle, but the greatest accuracy is obtained by using .22 Long Rifle cartridge only.

If your dealer hasn't it we will send express prepaid on receipt of List Price \$8.00.

## ASSESSMENT NOTICE NO 4

The Sierra Madre Mining and Milling Company, location of principal place of business, City of Sierra Madre, County of Los Angeles, State of California.

Notice is hereby given that at a meeting of the Directors of The Sierra Madre Mining and Milling Company held on the 6th day of October, 1911, an assessment of one-fourth of one cent per share was levied upon the subscribed capital stock of the company, payable immediately to J. H. Thorndike, Secretary, at the office of the Company, Clark and Graham Building, 325 Central Avenue, in the City of Sierra Madre, County of Los Angeles, State of California. Any stock upon which this assessment shall remain unpaid on the 10th day of November, 1911, will be advertised for sale at public auction and unless payment is made before, will be sold on the 2nd day of December, 1911, to pay the delinquent assessment, together with the costs of advertising and expense of sale.

THE SIERRA MADRE MINING AND MILLING COMPANY.

J. H. Thorndike, Secretary.

## The Theaters

## Belasco

James Neill, actor-manager and at present stage director of the Belasco stock company, has won numerous triumphs on the local stage, but none of them has equalled his delightfully artistic and human portrayal of David Holmes, the central male figure of Martha Morton's fine play, "A Bachelor's Romance." Mr. Neill will have an opportunity to repeat his former successes in this charming piece at the Belasco next week, commencing Monday night, and in the endeavor, will have the assistance of not only the regular Belasco forces, but of that decidedly popular actor, John Burton, who will make his first appearance on the Belasco stage Monday night in the role of Boggs, the faithful and confidential secretary to Holmes.

Out of the great mass of plays that were produced a decade or so ago, "A Bachelor's Romance" remains as one of the refreshing and clean hits of dramatic literature. Age does not seem to affect its pleasing qualities and the tender, gracious, young-old literary critic Holmes, who forgets that his young ward has grown to womanhood, is still as fascinating and delightful a character as when he was first made known to native audiences by Sol Smith Russell.

The performance of "A Bachelor's Romance" will engage the services of David Landau, who will be seen as Holmes' worthy brother, Gerald; Richard Vivian as a newspaper man; James K. Applebee as the classically educated Mr. Mulberry; Miss Sullivan as David Holmes' young widowed sister and Bessie Barriscale as Holmes' ward, who refuses to be a feminine Peter Pan and who is one of the most pleasing heroines of modern stage literature.

## Majestic

Max Figman will make known his most successful play, "Mary Jane's Pa" at the Majestic theater next week, with the popular comedian in his favorite role of Hiram Hawkins, the Indiana poet, philosopher, nomad and cook.

Mr. Figman will have the benefit of a supporting company of unusual excellence, including Miss Lolita Robertson, who will be seen in the role of Hiram's industrious wife, and little Dorothy MacKay as Mary Jane, one of the most delightful characters the local stage has ever known. Miss MacKay played the part on the road with Mr. Figman and those who saw the performance of "The Old Curiosity Shop" last week enjoyed what this clever little girl can do with such a capital part as Mary Jane.

Edith Ellis, who is responsible for "Mary Jane's Pa" has contributed to the dramatic literature of the native stage a product that will long stand as a leader in the list of rural plays.

## Burbank

The Burbank audiences, who in the past have showed very plainly that they have a decided liking for good, clean comedy or farce, will have a chance for much enjoyment in this particular line of stage entertainment next week when George Cameron's rollicking farcical success, "Billy," will make the acquaintance of the patrons of the Burbank for the first time.

"Billy" has to do with the adventures of Billy Hargraves, a young college football coach. During a game he has lost his teeth and he has secured an artificial set. Under ordinary circumstances the result would not have caused Billy much inconvenience or concern, but it happens that he is called upon to make a trip with his mother and sister to the Bermudas, and of course he meets on board the ship the very girl he has always wanted to meet.

## AUDUBON SOCIETY TO MEET

State Organization to Have Permanent Exhibit in Los Angeles

The Audubon Society of Sierra Madre will meet at the home of Mrs. Martha A. Williamson, 355 N. Auburn avenue, on Monday, October 16, at three o'clock. This will be the first meeting since the summer vacation period. Miss Alice Lockwood, the secretary, has received the following letter from Mrs. Harriet W. Myers, secretary of the state organization:

To the Friends of Bird Protection: The Audubon Society of California has been given space for a permanent exhibit in the new Museum of History, Science and Art located at Exposition Park, Los Angeles.

Realizing that this will be a splendid opportunity to place before the public the great value of our birds as destroyers of black olive scale, codling moth, cotton-boll weevil and other insect pests, we are anxious to arrange an exhibit that will be educational and attractive. We shall have space for loan exhibits of original drawings, fine photographs, books, and mounted specimens, which will be properly taken care of and labeled with the name of the loaner.

We respectfully ask both clubs and individuals to give financial assistance in this important undertaking by becoming Patrons, Life or Sustaining Members of our society, by contributions or suitable gifts.

MRS. HARRIET WILLIAMS MYERS, Secretary.

306 Avenue 65, Los Angeles.

Try your luck with a News liner. They are almost in the "sure thing" class with the odds in your favor.

## Library Notes

## "The Friendly Stars"

"One may revel in the beauty of a whole field of grass and flowers, but his heart gives a leap when he sees among them the heart of some flower that he knows and likes, and he cries, 'There's a lily,' or a gentian, or whatever it may be. Birds may flit around us as we sit in the woods, and we note them as black, yellow, pretty, or whatever, and we think we are getting all the pleasure we can from them; but interest quickens when one comes that we can name, and it at once has an individuality and an importance which none the rest have.

"So it is with the stars: a starry night is beautiful and we gaze at it and enjoy it and do not care to know more about it in detail. But if by chance we come to know by name one bright star it immediately separates itself from all the others and becomes an individual. If we enlarge our acquaintance in the skies the whole aspect of the heavens is changed, and, instead of a brilliant assembly of impersonal points of light we see a host of individuals that we know as bright Capella, a sombre Betelgeuse, and others."

The above passage is from one of the new books at the public library, "The Friendly Stars," which opens up an inviting field for nature lovers who have never extended their acquaintance into the heavens. Sierra Madre is blessed above almost any other town with atmospheric conditions favorable for observation of the stars. Our clear, steady air is vastly different from that of valleys or of large cities. This book points the easiest way to an acquaintance with the stars without troubling over meridians, ecliptics, right ascension, declination or any of the other mathematical obstacles which are so formidable to the average person. The author, Martha Evans Martin, succeeds admirably in making the stars interesting and their acquaintance easy

without resorting to technical methods and better yet without sacrificing scientific accuracy. This book and Sir Robert Ball's "Story of the Heavens" should furnish material for greatly increasing enjoyment of the approaching winter evenings, when the heavens present some of their most interesting aspects.

No. 72489  
NOTICE OF FORECLOSURE SALE  
Sheriff's Sale

Order of Sale and Decree of Foreclosure and Sale.

George Kellogg Whitworth and Miriam Lucile Whitworth, minors, by their Guardian, Charles A. Shurtliff, Plaintiffs, vs. Jennie Boswell Washburn, W. T. Rooney and Mrs. W. T. Rooney, his wife, P. W. Clark and Mrs. M. L. Clark, his wife, and the Pasadena Investment Company, a corporation, heretofore sued herein as John Doe, Empire Security Company, a corporation, heretofore sued herein as Richard Roe, James Doe, George Doe, Harry Doe and Edwin Doe, Defendants.

Under and by virtue of an order of sale and decree of foreclosure and sale, issued out of the Superior Court of the County of Los Angeles, of the State of California, on the 25th day of August, A. D. 1911, in the above entitled action, wherein George Kellogg Whitworth and Miriam Lucile Whitworth, minors, by their Guardian, Charles A. Shurtliff, the above named Plaintiffs, obtained a judgment and decree of foreclosure and sale against Jennie Boswell Washburn, et al., defendants, on the 17th day of August, A. D. 1911, for the sum of Ten Thousand Eight Hundred and 77-100 (\$10,890.77) Dollars, Gold Coin of United States which said decree was, on the 23rd day of August, A. D. 1911, recorded in Judgment Book 227 of said Court, at page 227. I am commanded to sell all those certain lots, pieces or parcels of land situated, lying and being in the City of Sierra Madre, County of Los Angeles, State of California, and bounded and described as follows: Lots one (1) to seventeen (17) both inclusive of Block "C" and Lots one (1) to seventeen (17) both inclusive of Block "D" of the Grand View Tract, a subdivision of the East half of Lot Eighteen (18) of Sierra Madre Tract, as per map recorded in Book 29, page 96, Miscellaneous Records, in the office of the County Recorder of said Los Angeles County.

Public Notice is Hereby Given, That on Wednesday, the 25th day of October, A. D. 1911, at 12 o'clock M., of that day, in front of the Court House door of the County of Los Angeles, Broadway entrance, I will, in obedience to said order of sale and decree of foreclosure and sale, sell the above described property, or so much thereof as may be necessary to satisfy said judgment, with interests and costs, etc., to the highest and best bidder, for cash Gold Coin of the United States.

Dated this 28th day of September, 1911.  
W. A. HAMMEL,  
Sheriff of Los Angeles County.  
By E. W. BISCALLIZ,  
Deputy Sheriff.  
WALDO M. YORK, Plaintiff's Attorney

## OUR HIGHWAY CLAIMS

Sierra Madre lays just claim to being included in the route of the state highway system. The chief reason for taking the state highway along the county's foothill boulevard is the scenic superiority of that road. As has been aptly said, to leave Sierra Madre out of the scheme of a scenic foothill road would be like making a beautiful ring and leaving out the jewel. At no point on the whole county road is such a vista presented as that secured from the "bench" on which Sierra Madre is situated. By making a slight detour along the line of the Pacific Electric railway the highway would afford to its travelers the finest view of the San Gabriel Valley obtainable from any point where roadmaking is practicable. Sierra Madre was cheated out of its desired connection with the county highway system and the co-operation of neighboring cities in securing this link in the state system is felt to be only its due.

## CALIFORNIA'S ADVANCED STAND

California voters put themselves squarely on record Tuesday as favoring the most advanced forms of progressive legislation. The initiative and referendum, the recall, state control of public utilities, the abolition of reversals in criminal cases on mere technicalities where there has been no miscarriage of justice, the placing of the state railroad commission beyond the reach of corporation control, and the granting of equal suffrage to the womanhood of the state are surely a good day's work. To be sure it was not carried out in a day. But only one day was necessary for the voters to put their seal of approval on the movements which have been under way for years in an effort to take politics out of the hands of the corporations and place the voters in actual control. All the legislation aimed toward that end are good. But equal suffrage is the cap sheaf without which the rest would not have been complete. The result in the state permits a smile of indulgence toward the noble sixty-three in Sierra Madre who voted with the slums and saloon riff raff of San Francisco and Los Angeles in their gallant effort to preserve unscathed the sweet and noble helplessness of the fair sex.

## BY THE WAY

With the addition of only a few more. That is far better policy than the giving of similar rewards for faithful political service. Having written the recall of the judiciary into the constitution of the state the people of California will drop the pen long enough to give a hospitable grip to the hand with which President Taft vetoed Arizona statehood because the proposed constitution contained the same provision for Arizona.

cover a prospector's hole he punctured in the mountain side several decades ago, when the report went out that Mt. Wilson's rocky flanks held the apexes of as many rich ledges as did the granite sides of old Mt. Davidson of bonanza fame.

Strang enlisted several guests of the hotel into assisting him to locate the tunnel dug twenty-five years ago, hence this little story. The greenhorns pictured to themselves a mountain of quartz dripping with gold. Picks, shovels, anything to make a hole, were commandeered at the hotel, and the El Doradoans set out with Strang to locate the tunnel—and the mountain vault.

The aged prospector, his search for the tunnel in vain, returned to Pasadena, while the excitement that had been kindled by his appearance on the mountain developed into a fever. The would-be prospectors chipped at sup-

posed ledges and put the glass on them for signs of gold sulphides or yellow-speckled quartzite. Latest reports from the mountain top indicate that the gold excitement is still raging, with no early signs of petering out. So far not even a coloring of the yellow metal has been brought into the daylight.

The tunnel dug by Strang is said to be in the vicinity of Deer Park. Two other tunnels are known to exist on the mountain, the one close to Strain's camp being over 100 feet deep. A quantity of dynamite was discovered recently in this shaft, probably left there years ago by prospectors.

There can be seen at the Public Library a copy of the new magazine, "The Master Mind," which is edited by Mrs. Annie Rix Millitz; also at the "Home of Truth," 493 Auburn avenue,

where orders for the same can be taken.

Election day was almost as quiet as a holiday without a local celebration. There was no active electioneering on the street or about the polls.
